**Tech Pro Academy , Front End Course**

**Oct.2025 – Present**

Thessaloniki, GR

---

## PROJECTS

**LiveSpace** | React, React Native, CSS, Node.js, Firebase, Firestore, Figma, Netlify

- Developing an online social network web application to allow people to communicate with their circle while at the same time enchanting and practicing my skills in React Native
- Implemented a test environment using Firebase before committing the changes in the Netlify domain.
- Designed a database in firestore with the necessary safety parameters such as hashing and security rules.
- Designed an Alpha Version UI to add or modify potential features.
- Key Idea to design a messaging platform integrating classic IM features with innovative, discontinued functionalities to enhance user interaction and overall experience.

**PetMe Petshop** | React, React Native, CSS, Node.js, Firebase, Firestore, Typescript.

- Developed an online pet shop store for a client in Thessaloniki, implementing front-end and back-end functionality.
- Conducted requirements analysis with the client to define products, pricing, and page design.
- Delivered multiple prototype concepts to iterate on design and user experience.

**DevOffice** | React, React Native, Node.js, CSS, MySQL, Xaamp,

- Developed an online office seat-booking system as a Final Project at City College, University of York.
- Implemented a role-base access for admins and customers
- Designed a Figma prototype UI for the website
- Designed a Database in MySQL which stores all the necessary data.
- Conducted requirements analysis with a real workplace to define the feature set for implementation.

## **U-Bank UI /UX | Figma, Balsamiq , Miro**

- **Developed an online office seat-booking system** as a Final Project at City College, University of York.
- **Conducted requirements analysis with a real workplace** to define the feature set for implementation.
- **Designed and implemented a fictional e-banking application**, focusing on user experience and core banking features.
- **Conducted empathy map interviews** to design user personas and inform product development.
